Add monochromatic dimension and artistic flair to your stamping with Stampin' Up!'s Distinktive stamps. Distinktive stamps create different opacities in a single stamped image for realistic depth and intensity.

All Distinktive stamps fit neatly on Classic Stampin' Pads (see p. 182-187). For best results, apply ink to stamp using only the middle of the ink pad. Inking stamp along edges of an ink pad may cause ink lines to appear in the final stamped image.
